

...THIS IS SEVERE WEATHER AWARENESS WEEK...

The National Weather Service along with Nebraska Emergency Management and the Iowa Homeland Security and Emergency Division have declared March 23 through March 27 as Severe Weather Awareness Week. Each day during the awareness week will feature information about a different severe weather related topic. Today's topic is:

Be Aware:

Knowing when severe weather is possible will give you time to prepare! You can always find the latest forecasts and hazardous weather conditions at weather.gov. If you're not on your computer, you can access the same information via your mobile device at <http://mobile.weather.gov>. Wireless Emergency Alerts are lifesaving messages that will pop up on your mobile phone when you are in a geographic area that is under a Flash Flood Warning. Visit www.weather.gov/wirelessalerts for more information! Another tool to alert you to hazardous conditions is NOAA All Hazards Radio. This nationwide network of radio stations broadcasts continuous weather, river and other emergency information direct from NWS offices and emergency officials. For more information, visit www.nws.noaa.gov/nwr/
